GETTING THE JOB DONE.
ANYWHERE.

„ACCESS ROADS WERE BLOCKED AND PARTIALLY IMPASSIBLE. IT WAS IMPOSSIBLE FOR US TO BRING THE REQUIRED MOBILE POWER SOLUTIONS TO THE JOB SITE.”

Bredenoord

During the 2021 flooding in Europe, access to the impacted areas was severely limited as roads were destroyed or covered with mud, rocks, and trees. For most rescue vehicles, roads were almost impassible. With the use of PowerBully, rescue teams could safely and efficiently bring emergency personnel, equipment, generators, pumps and supplies to hard-to-reach sites.

FOR ANY TERRAIN. POWERBULLY.
